

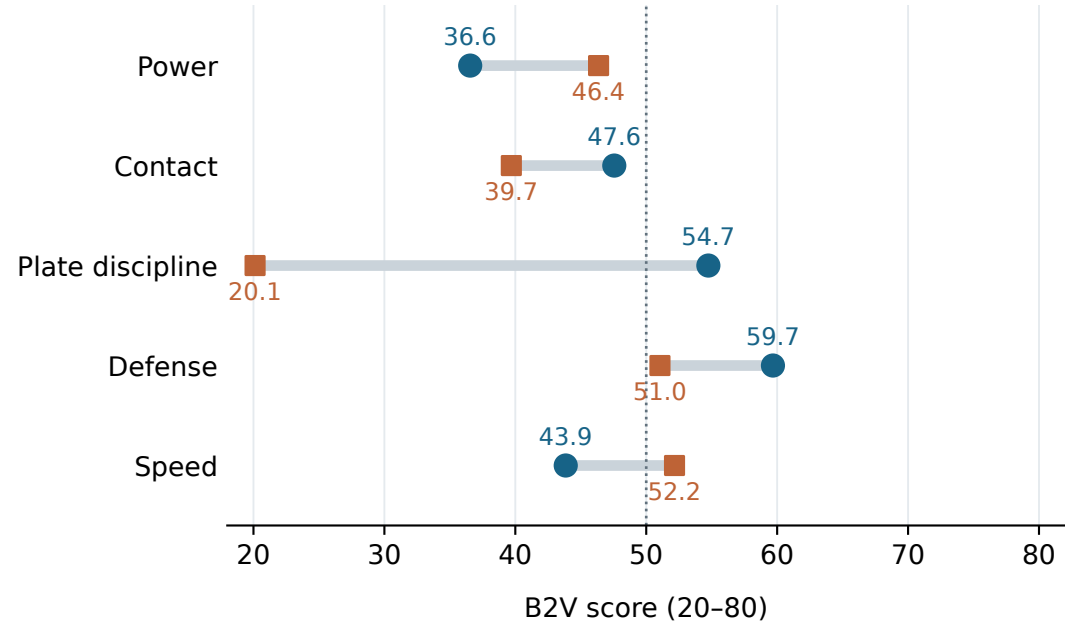

Figure 1 | Similar value, distinct skill profiles

B2V describes differences hidden by WAR and wRC+ summaries.

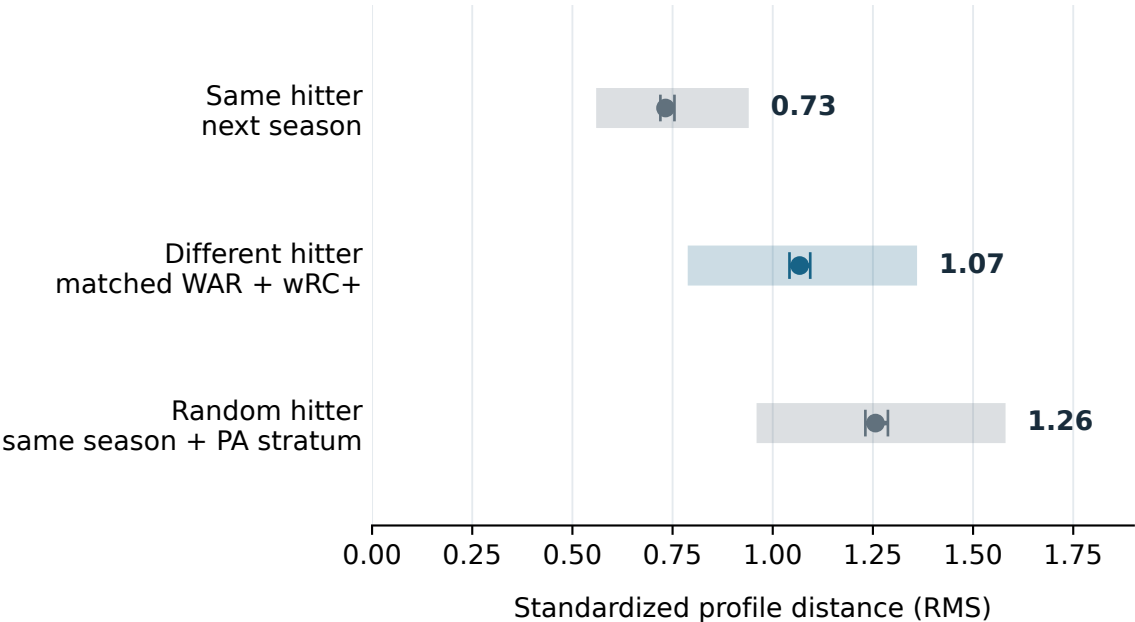

A An illustrative matched pair

Brayan Rocchio · 2024 | WAR 1.1 · wRC+ 79.2
Ceddanne Rafaela · 2024 | WAR 1.0 · wRC+ 80.9

B Distances across the common sample

1,777 focal seasons · 626 hitters

Matched-pair median distance was 15.1% lower than random (95% CI 12.6-17.5%).

B: dots = medians; thin capped bars = 95% cluster CIs; shaded bands = interquartile ranges. All groups share the same focal seasons.

A: high-distance illustration selected near the 90th percentile among matched pairs with both PA ≥ 400; not a typical pair.

2019-2025 cohort, PA ≥ 100. Scores are constructed statistical profiles; scouting-grade validity and uniqueness versus other profiles are untested.
